

As librarians, how can we ensure researchers access the most up-to-date version of the scholarly record?

8

Reasons Researchers Should Use the GetFTR Browser Extension

University of North Carolina at Charlotte

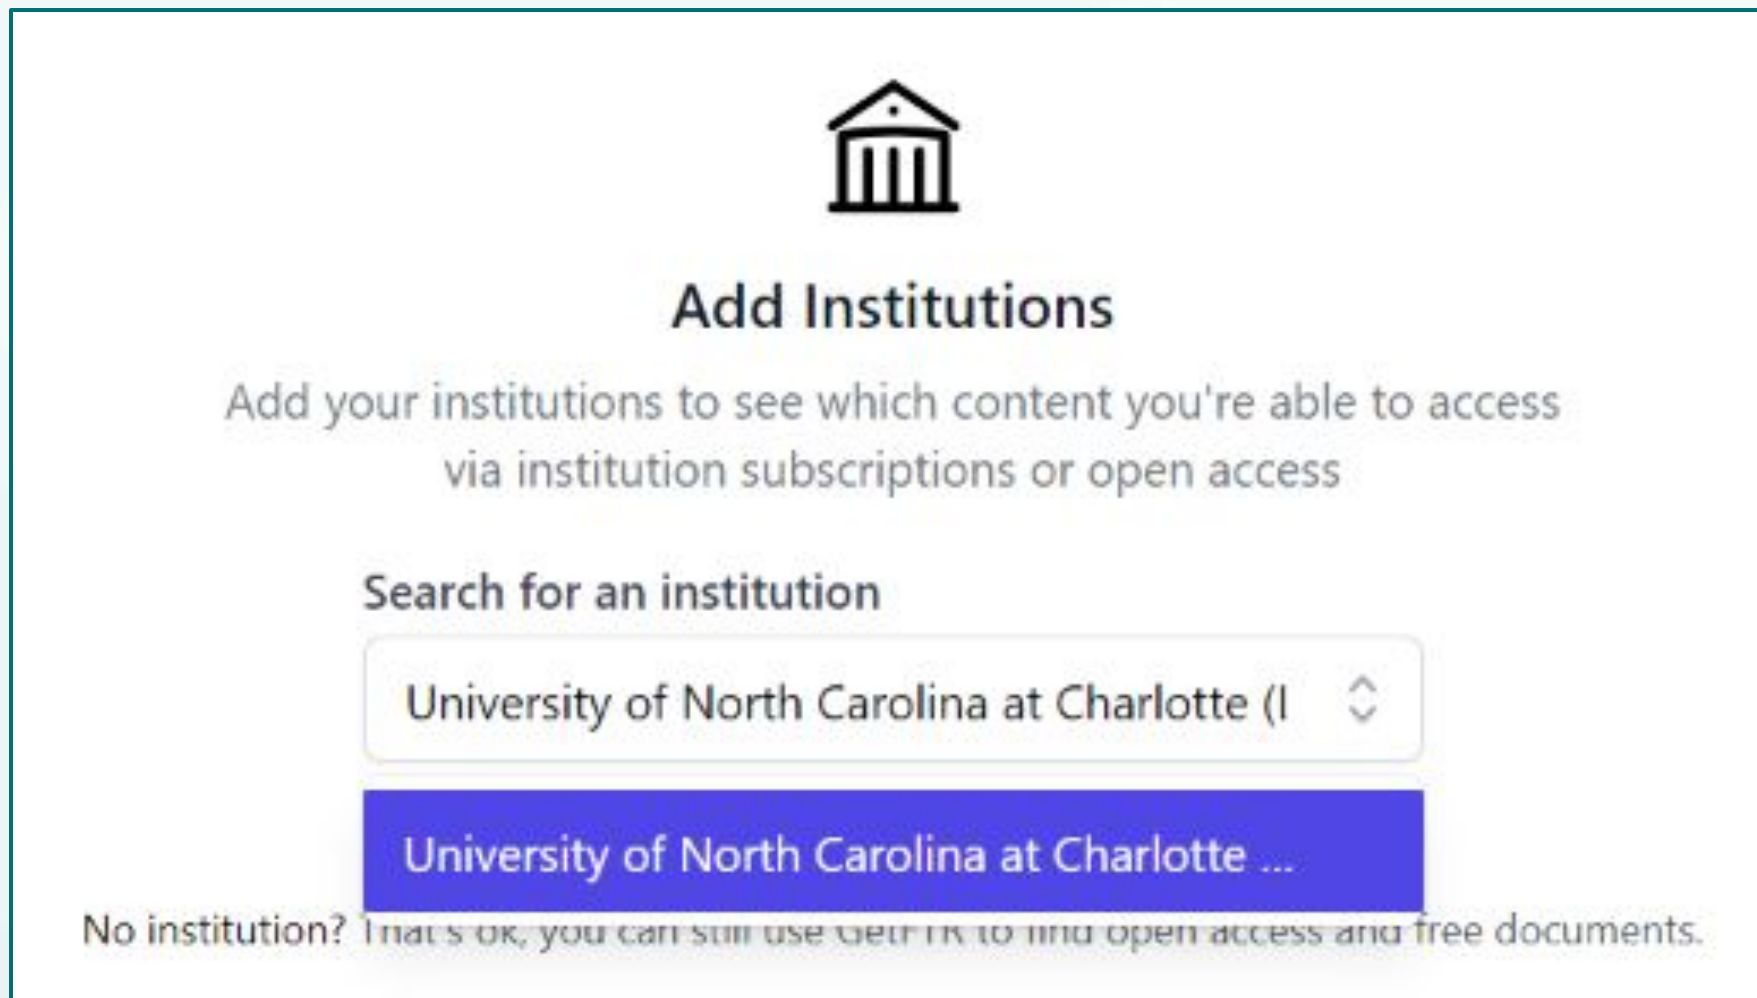

GET FULLTEXT
RESEARCH

What is Get Full Text Research (FTR)?

A free-to-use **browser extension** that indicates what book and journal content is available for researchers to access right at the point of discovery.

1 Free-to-use with easy set-up that works with your Institutional Subscriptions

Add Institutions

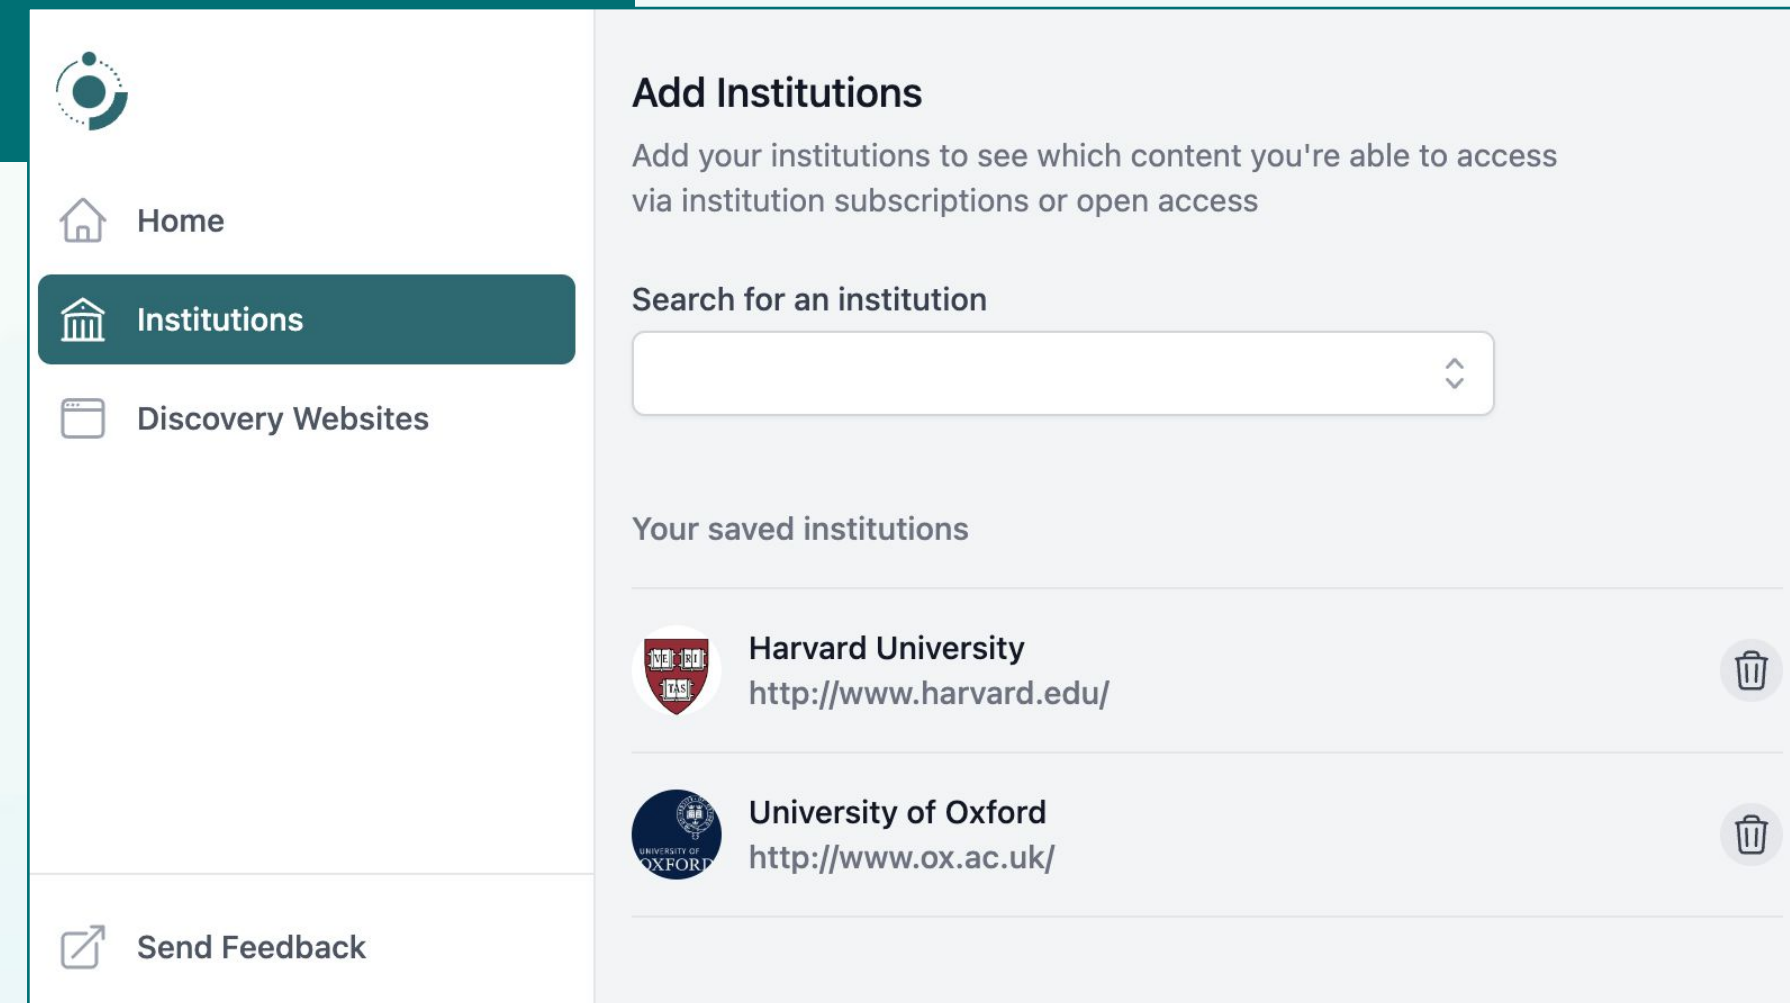

Add your institutions to see which content you're able to access via institution subscriptions or open access

Search for an institution
